## **Wendell O. Scott M.D., LLC Named Winner of Best Independent Medical Expert Provider Category by NJ Law Journal**

**New Providence, NJ (October 28, 2020)** - Multi-specialty medical expert firm [Wendell O. Scott, M.D., LLC \(WOSMD\)](#) is honored to announce that it has been named “Winner” in the Best Expert Witness Provider (Medical) category in *New Jersey Law Journal's* 2020 annual legal vendor survey.

“In this year fraught with uncertainty, the confidence shown by New Jersey’s highly esteemed legal community for our practice and team of medical experts is especially meaningful,” expressed Wendell O. Scott, M.D. “Through their confidence in the assistance we provide, we have grown to a team of more than 55 medical experts, backed by impeccable credentials and ethical standards, who can deliver comprehensive, high level services in a wide variety of medical legal matters.”

The annual listing of “Best of” *New Jersey Law Journal* winners was developed to help lawyers identify the finest legal products and service providers and to showcase their top picks annually. The several dozen “Best of” categories provide an opportunity for legal professionals to cast their votes for companies critical to practicing law. Ultimately, “Best Of” highlights the businesses that stand out among their competitors in providing lawyers with the essential products and services they require to successfully compete in today’s legal marketplace.

The team of experts at Wendell O. Scott, M.D. Consulting draws from decades of clinical experience when providing insight and guidance to America's finest attorneys, insurance carriers, governmental agencies and other entities. The multi-specialty medical expert firm is comprised of highly qualified board certified physicians, nurses, physical therapists and other medical specialists. Dr. Scott, the team of medical experts and the dedicated staff provide superior quality service to client firms to ensure they receive comprehensive clearly stated reporting and superior expert witness testimony including 3-D models, and trial exhibit materials. Clients also receive targeted advice about strategic direction to ensure they have full mastery of complex medical data that pertains to the medical legal matters in their cases.
